1 What are idioms

Idioms are phrases that have a *figurative meaning* that is different from the *literal meaning* of the individual words. All languages have their own idioms to express a situation.

- **Literal meaning:** The actual, dictionary definition of each word.
- **Figurative meaning:** The implied or metaphorical meaning of the phrase as a whole.

"It's raining cats and dogs"

- **Literal meaning:** Animals are falling from the sky! (Obviously not true)
- **Figurative meaning:** It's raining very heavily or in certain scenarios raining all day.

2 The difference between slang and idioms

- **Slang:** Informal words or phrases used by a specific group (teenagers, gamers, etc.). - *Cool words that change a lot, used by certain groups.*
 - **Examples:** *Chill, lit, bruh*
 - **Key:** Often changes quickly and is specific to a certain group.
- **Idioms:** *Phrases with hidden meanings, like puzzles you have to figure out.*
